

# Plasback farm plastics recycling – THE FACTS

*All plastics collected are recycled*

## Recycling Silage Wrap, Grain Tubes & Pit Covers:

- You must use only green Plasback “Silage Wrap Only” liners.
- One Plasback silage wrap liner will hold 16 – 20 round bale silage wraps
- One box holds 25 Plasback silage wrap liners – enough to recycle either 400 + wraps, 5+ grain tubes, 3 – 5 silage pit covers
- Bale net wrap must be separated and cannot be included in the liner. This cannot be recycled at this stage.
- The plastic cores cannot be recycled at this stage.

## Recycling Baling Twine:

- You must use only red Plasback “Twine Only” liners.
- One Plasback twine liner will hold twine from 70+ big square bales.
- One box holds 10 Plasback silage wrap liners – enough to recycle either 700+ big square bales.
- Please tie off all liners with either a cable tie, piece of silage plastic (silage liners) or baling twine (twine liners)

**IF ANY OTHER PLASTICS OR RUBBISH ARE IN THESE LINERS  
WHEN DROPPED – THEY WILL BE REJECTED**

Visit [www.plasback.com.au](http://www.plasback.com.au) or call **03 93618100** for drop points & other information.
